

I think the NAB's push against satellite radio is an absolute atrocity. I subscribe to satellite radio because of the bland music and commentary that stinks up the airwaves now. I don't believe the NAB should have any say over what services satellite radio provides. This is a private service that I have elected to have.

I respectfully urge the FCC to REJECT the NAB's petition 04-160 and support satellite radio and their right to compete in this marketplace. We cannot allow the large, corporate companies to monopolize the airwaves.

Thank you for your time.
